

Rich Boi

Porcelain Black

Give it up
You want my juicy red lips
No lie
Burn it up
No paper's buying my love
I fire up
No gangsta shooting me down
Tonight
Give it up
You're pussy-whipped
So it's on tonight If you love me, love me, love me
I'll drive you, drive you crazy
You can spend it, spend it on me
Let's go baby Blow that money on me
Everybody knows that your daddy pays
Blow that money on me
Everybody knows but we play your game
I want this
Look at that
Buy me that
Little, little, little rich boy
Blow that money on me
Everybody knows that your daddy pays
Little, little, little rich boy
Little, little, little rich boy Chug it up
Can't even handle these drinks you buy
Take 'em off
Your shades are failing to help you hide
You and I
Are different breeds and our worlds collide
Do or die
You ain't doing shit
Just walk the line If you love me, love me, love me
I'll drive you, drive you crazy
You can spend it, spend it on me
Let's go baby Blow that money on me
Everybody knows that your daddy pays
Blow that money on me
Everybody knows but we play your game

I want this
Look at that
Buy me that
Little, little, little rich boy
Blow that money on me
Everybody knows that your daddy pays
Little, little, little rich boy
Little, little, little rich boy Throw your Benjamins in the sky
Rolling up a Lincoln now I'm so high
Lonely Washington I don't like
I don't like If you love me, love me, love me
I'll drive you, drive you crazy
You can spend it, spend it on me
Let's go baby Blow that money on me
Everybody knows that your daddy pays
Blow that money on me
Everybody knows but we play your game
I want this
Look at that
Buy me that
Little, little, little rich boy
Blow that money on me
Everybody knows that your daddy pays
Little, little, little rich boy
Little, little, little rich boy
