

Always Love Your Life!

[Fred Ellis](#)

(Verse)

I met an old couple on the street
they seemed so happy and so upbeat
they told me theres so many good things
upon this earth, so always love your life!2X (Chorus)

They told me, to tell the parents to love your Life
they told me To tell the children to Love Your Life!

They told me, to spread these words around the
world, to Always Love Your Life!(Verse)

I walked away with their words in my head

Ill never forget the things that they said

they told me theres so many good things

upon this earth, so always love your life!2X (Chorus)For life is precious in everyone sight, thats what they
said to me. From the smallest creature to a big tall tree

they have a life just like me.2X (Chorus)To all the people who agree whats been said

these lovely words have to be spread

I tell you theres so many good things

upon this earth so always love your life!
