Perfect Night

Mike Zombie

I dream of you
Waiting for you
To see I'm still here'Coz I just want to love you better
Better than anyone
'Coz when you shine your light upon me
It's brighter than the morning sun
I just want to love you better
And show youStarlight, moonlight
What you deserve
Dinner with a candle and music and fireworks
If you give me this chance
We could have the perfect night
Starlight, moonlight
And shooting stars
Moving to the rhythm and dancing to soft guitars
If you give me this chance
We could have the perfect nightLost inside of you
Torn without you
You know that I'm still hereNow I just want to hold you tighter
Tighter than anyone
'Coz when you put your arms around me
It's warmer than the morning sun
And I just want to take you higher
And show youStarlight, moonlight
What you deserve
Dinner with a candle and music and fireworks
If you give me this chance
We could have the perfect night
Starlight, moonlight
And shooting stars
Moving to the rhythm and dancing to soft guitars
If you give me this chance
We could have the perfect nightLet me show you (Shooting stars)Starlight, moonlight
What you deserve
Dinner with a candle and music and fireworks
If you give me this chance
We can have the perfect night
Starlight, moonlight
And shooting stars

Moving to the rhythm and dancing to soft guitars
If you give me this chance
We could have the perfect night
