Hearteater (Hellfire Version)

[Emil Bulls](#)

This madness has to stop
It's driving me crazy
It makes the devil run trough me
It sets me off the wall
I declare my withdrawalGotta suck this poison out of my veins
The monster has got to be enchained
Contain the beast with reason's flame
A Hearteater can not be tamedEvery ending is a new beginning
Please allow me to invite you to leave
Some memories are best forgotten
Now I'm gonna erase
Everything I've done for you
Every word I spoke to you
All the dreams we've ever shared
Are just crumbling to dustEverything I've done for you
Every word I spoke to you
All the dreams we've ever shared
Are just crumbling to dustI need closure
I need to start all over
This must come to an end
Kill the monster
All shall fadeGotta suck this poison out of my veins
The monster has got to be enchained
Contain the beast with reason's flame
A Hearteater can not be tamed
Every ending is a new beginning
Please allow me to invite you to leave
Some memories are best forgotten
Now I'm gonna eraseEverything I've done for you
Every word I spoke to you
All the dreams we've ever shared
Are just crumbling to dustEverything I've done for you
Every word I spoke to you
All the dreams we've ever shared
Are just crumbling to dustEverything I've done for you
Every word I spoke to you
All the dreams we've ever shared
Are just crumbling to dustEverything I've done for you
Every word I spoke to you

All the dreams we've ever shared

Now I'm gonna eraseEverything I've done for you

Every word I spoke to you

All the dreams we've ever shared

Are just crumbling to dustEverything I've done for you

Every word I spoke to you

All the dreams we've ever shared

Are just crumbling to dustEvery dream

Every word

All we shared

Is just crumbling to dust

I gotta set my soul free

Forget about the plagued years

Sing my swan song to you

And free the bats in the belfry

And free the bats in the belfry
