

Carefully Try

The Polyphonic Spree

It's so like the god who makes an ordinary find
We're too much a lot alike while all we do is try

Carefully
Carefully try

Over and done
Over and by

It's so like the god who makes an unrelated find
The two of us prepare to trust while all we do is sigh

Carefully

Carefully try
Over and done
Over and by

Carefully waiting

Carefully try
Over and done
Over and by

I'm so far away
I cant seem to hide my mistakes
I fell on the way
It seems I'm much too late
both of us fade away

And so in life we gotta say
all we do is try
The two of us are born again
and all we do is fight
to overcome and start again
all we can do now
The two of us can pain away
but all we do is try

Carefully

Carefully try
Over and done
Over and by

Carefully waiting

Carefully try
Over and done
Over and by

Carefully
