

# Drive There Now!

## The Almost

Winter days make me say  
What the hey  
Let's say what we needed to saySince way back when we sailed our inhibitions  
Hold on tight 'cause this is so the truth  
This is so the truthI love the way that we laugh until we cry  
Dance until we die  
I love the smile with which you look at me and say  
Get ready for this, Aaron, get ready for thisI hope this gets you harder  
I hope you act so much strongerAnd I imagined honestly  
It gets you every time  
That I want it to honestly  
And think you're strongI love the way that we laugh until we cry  
Dance until we die  
I love the smile with which you look at me and say  
Get ready for this, Aaron, get ready for thisI want you to remember me  
When they tell you this is so insane, so insaneI love the way that we laugh until we cry  
Dance until we die  
I love the smile with which you look at me and say  
Get ready for this, Aaron, get ready for this
