Drive Away

Gratitude

If you ever see her lying hurt
Don't just stare
Please get up, get up, get up
Get up and help herAnd then check her pulse
And give her air
And then listen and breathe and keep checking
And checking and checking her heartsDon't drive away, don't leave her this way
Don't drive away againI could never say the things
That kept me up
Just lay there listening
To your whisperingMaybe you were supposed to help me
Learn to love you more
Help me to notice how we're
Different, different, different all right, all rightDon't drive away, don't leave her this way
There's not enough hours in our days
Don't drive away, don't drive away
Don't walk out on her again, again
Don't driveDon't drive away, don't leave her this way
There's not enough hours in our days
Don't drive away, don't drive away
Don't walk out on her again, again, again, againAnd don't drive away and don't leave her this way
There's not enough hours
Not enough hours in our days
So don't drive, don't drive, don't drive
Don't drive away
