

Sumthing Like This Night

Snoop Dogg

[Intro: Snoop Dogg]Top selector number one Big Snoop D-O-double-G, ya!

Come again, bo, bo!

There's somethin 'bout this night

Somethin 'bout this light, yahhhhh

[Snoop Dogg]Illa dilla, I'ma killer

Snoopy Dogg with the Gorillaz

Layin low, on the flo'

My hands up high, I'm full of 'dro

Girlies tryin to kiss me slow

I'm leanin like a sixty-fo'

This life I live's incredible

These trees I breeze are medical

Take a look, in my eyes

Hold on tight, enjoy the ride

If you don't feel good then you out of place

My universe, is outer space

My look, my style, my Prada case

Lil' daddy get out our face

Trip this, sip this, hit that, now sit on back

And let Dogg go and get on that

Party people you invited

[Chorus: Gorillaz]Have you ever tried it... somethin like this night

I can try to smoke wit'chu, somethin like this night

Have you ever tried it... somethin like this night

I can try to smoke wit'chu, somethin like this night

Somethin like this night, somethin like this night

Somethin like this night, somethin like this night

[Snoop Dogg]What a night to get involved

Everybody have a pause

Celebrate and fill your cup

Drink until you get enough

How you feel, I got that feelin

Disco lights hang from the ceiling

Ain't nobody on the wall

Pop it, drop it, let that fall

Hey DJ, play my song

Step back, let it bang all night long

I need your attention, no hopin or wishin

Come in in high-definition
Said I do, right that I do
Get up and get money, yep that I do
Rode it, ride it, lick it
Bite it, roll it, ride it
Party people you invited
[Chorus][Snoop] Party people you invited
[Gorillaz]Somethin like this night, somethin like this [2X]
Somethin like this night, somethin like this night [2X]
