

Where Did I Go

Holiday Parade

I'm speaking up this time around
Cause everything's you lost is about to be found
And I like the way you like the way I strum on my guitar as you let your hair down
Mixtapes for the car ride home, singing out the words to every song we know
That's just the way I roll,
I let the feeling take me back
So I like the way you breathe
We're taking it easy
Could I maybe come by and sing you to sleep?Where did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?
Where did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?Take you back around and spin me once more
It's coming out my mouth and straight to the dance floor
The music's the only way I know
Now let me show you what I have in store
Parties in the upstairs room, flowers in the backseat start to bloom
I try my best to stay in tune
As this song always brings me back to the day we hit the streets
Out of the backyard, running
Felt like we had the world at our feet
And we didWhere did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?
Where did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?You're falling through
You start to come around here every night
I'm thinking maybe we can just unwind
We'll be just fine
It's my campfire sing along
It's just like that
Bout til it's song (?)
We're living like a Rolling Stone
Will we stop? I don't think so.Where did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?
Where did I, did I, did I go?

Where did I, did I, did I go?
Where did I, did I, did I go right this time? I like the way you breathe
Taking it easy
Could I maybe come by and sing you to sleep?
Everyone wants a piece
Baby, I got mine
Still I'm drowning inside you're world as we speak Where did I, did I, did I go?
Where did I, did I, did I go?
Where did I, did I, did I go right this time?
