

# Four Leaf Clover

## Mozella

DoDoDo DoDoDo DoDoDo  
DoDoDo DoDoDo DoDoDo

I would spend my days in isolation,  
In a cafe talking to myself,  
Love was never in the conversation,  
I couldn't get it right, but that was life.

Always just a friend, never a lover,  
I'm the one they call for good advice,  
Always seemed it was something or other,  
But my love reappeared, and now it's all so clear.

For once in my life I'm gonna get it right.  
I want long stemmed roses and a kiss goodnight.  
I'm gonna know how it feels when the stars align.  
You'll be my four leaf clover, and we'll start over

For once in my life I'm gonna make a change.  
I'm gonna deal with myself, I'm gonna rearrange.  
One step at a time, we'll take it day by day.  
You'll be my four leaf clover, and we'll start over.

DoDoDo DoDoDo DoDoDo  
DoDoDo DoDoDo DoDoDo

Love has now come into the equation,  
Things are looking brighter than before,  
I finally caught the right train at the station,  
Should I take that ride?  
I think I'll give it a try.

For once in my life I'm gonna get it right.  
I want long stemmed roses and a kiss goodnight.  
I'm gonna know how it feels when the stars align.  
You'll be my four leaf clover, and we'll start over.

For once in my life I'm gonna make a change.  
I'm gonna deal with myself, I'm gonna rearrange.  
One step at a time, we'll take it day by day.

You?ll be my four leaf clover, and we?ll start over.

This is something heavy,  
But I think I?m ready,  
My luck has come around,  
It turned me inside out,  
I?ll test the water, fan the flame,  
I?ll walk the plain, I?ll play the game,  
Yea, I?ll play the game.

For once in my life I?m gonna get it right.  
I want long stemmed roses and a kiss goodnight.  
I'm gonna know how it feels when the stars align.  
You?ll be my four leaf clover, and we?ll start over.

For once in my life I?m gonna make a change.  
I?m gonna deal with myself, I?m gonna rearrange.  
One step at a time, we?ll take it day by day.  
You?ll be my four leaf clover, and we?ll start over.

For once in my life I?m gonna get it right.  
I want long stemmed roses and a kiss goodnight.  
I'm gonna know how it feels when the stars align.  
You?ll be my four leaf clover, and we?ll start over.

For once in my life I?m gonna make a change.  
I?m gonna deal with myself, I?m gonna rearrange.  
One step at a time, we?ll take it day by day.  
You?ll be my four leaf clover, and we?ll start over.
