Thought About It 2

The Coup

Advisory - the following lyrics contain explicit language:

Have you thought about it 2?
Because we are here for you
When you have nothing to lose
All the people feel it tooHave you thought about it 2?
Because we are here for you
When you have nothing to lose
All the people feel it tooYou do have a way out, baby
And together we can breath free airHave you thought about it 2?
Because we are here for you
When you have nothing to lose
All the people feel it tooI know they wanna isolate you, yeah, ooh
Give you nothing to relate to, yeah, oh
We're gonna have to break this whole motherfucker down
So loneliness, don't let it overtake you, noWhen you feel so all alone
Know you have a home
