

Beautiful Woman

Backstreet Boys

How can I begin to
Tell you what you do to
Me every time I hear ya
More willing to wanna see ya I know that there's no use in
Tryin' to explain the confusion
But still I'm not complainin'
'Bout my situation Let's not talk about a
Possible ending The very first time that I
Was lookin' to be your fellow
I found my inspiration
Hidin' in your expression
So I put myself on forward
For your consideration [Chorus:]
Let's not talk about a
Possible ending
Let's not think about it
Every day
And I know
I'm so
In love
With you
I'm finding it harder and harder to breath
Every time I'm near
my beautiful woman And so we put the top down
To take you drivin' downtown
I guess we'll know just what to do
When you're lookin' to fool around It's too late to stop me
I know we're gonna get down [Chorus] my beautiful woman
my beautiful woman
my beautiful woman B is for beautiful
as the sunshine
E tells me everything
is feelin' alright
A goes to you and me
swingin' it down
T is two
I want you
You've got me actin' like a fool [Chorus]
