Somewhere

Jude Cole

Somewhere you and I go
Making it real, making it whole
Somewhere you and I know
We're making believe it's in our controlI wanna reach up
When the dark night comes
I wanna take you far from here
To somewhere we belongSomewhere there's a rainbow
Shining along the rivers of old
Someday I'll be me
And you won't have to hide the colors you holdI know it's just like you to say it's okay
I know you know we'll be together someday
We'll shine onSomewhere I'll have you right where I need you
I don't care what they say
'Cause you know they don't know
Just how crazy we are anywayI wanna reach out
When the dark night comes
I wanna take you far from here
To somewhere you'll see
Someday we'll belong
