

Wake Up

Ringo Starr

One, two
I wake up calling your name,
But it's still not the same as have you right here with me.
And if you go away, for only a day,
You know that I'll still love you.

There is nothing better than to love you,
When you're near the way is clear, I love you.

You gotta know
What is it for
Why is it so
And can you tell me?

I will be right there
Willing to share everything I can with you.
And when you're by my side
I've no reason to hide I dream all my dreams about you.

There is nothing better than to love you,
When you're near the way is clear, I love you.

You gotta know
What is it for
Why is it so
And can you tell me?

You and me are all we need, stay with me.
Lovers need each other, please, stay with me.

You gotta know
What is it for
Why is it so
And can you tell me?

You gotta know
What is it for
And can you tell me?
Why is it so?
