

# I Need Adventure

[G.G. Allin](#)

Well I need adventure, yes I do, I need adventure every day  
Gotta have fast cars, wild women, gotta have my fun and play all day  
I need a wild woman, I need a girl to go down on me  
Yea, I need adventure, just the kind that they promised you and me Well I need adventure, give me danger, I'll  
take it in any way  
I'll take all that you can throw at me, ain't nobody getting in my way  
I need some wild women, I need some girls to go down on me  
I need adventure, just the kind that they promised you and me Well I need adventure, come on boys and lets  
show 'em what we can do  
We're gonna have a wild, wild party, gonna break out a bottle of whiskey or 2  
I need some wild women, I need some girls like you for free  
Yea, I need adventure, just the kind that they promised you and me
