The Fly

Robin Williamson

Come on, come on and do the fly with me
Hey, come on everybody and do the fly with me
Well, if you don't know how to do it
Just watch and see
You've gotta shake your hands all around and around the sky
And then you buzz around the floor
You can do it if you really try
All the girls and guys are getting buzzed
They're gonna fly, fly high baby
You pretty little girl, come and fly away with me
Oh, pretty little girl, fly away with me
We're gonna fly to the sky
But you'll never fly away from me, oh yeah, hey

Don't you know
You've gotta shake your hands all around and around the sky
And then you buzz around the floor
You can do it if you really try
All the girls and guys are getting buzzed
They're gonna fly, fly high, baby
Come on, come on and do the fly with me
Come on everybody and do the fly with me
Well, you can fly to the sky
But you'll never fly away from me, now fly
Yeah, fly, fly, baby
Yeah, gonna fly, fly, fly, fly, fly, fly
