Reign of Terror

Testament

Marching our way through the crypts of the dead
Taking his land by command
Killing the victims and taking no slaves
Hitler's final Third Reich
The engines are roaring the warheads' a blast
Destroyers claims their fate
Hell's legions armies they march to defy
Lucifer takes his waitObeying this task by our leaders will
Death camps have taken their toll
Cold winds of winter are present forever
Destroyers claim their fateFighting our way through the midst of the night
Taking the life from young souls
Marching our armies prepared to fight
The cities all laid destroyed
Machine guns are firing the tanks are a blast
Bombing our way through hell
Generals smiling destruction strikes
Our armies have done wellObeying this task by our leaders will
Death camps have taken their toll
Cold winds of winter are present forever
Destroyers claim their fate
Death campThough the dead have trapped us in
We'll break the pact a deadly whim
Fashioned hammers wielded straight
Cursing us back to Hell's gatesBlack magic force that's taken it's course
The world lives in fear the death calls are near
Awaiting this task battle at last
The worlds left to defy
Now's the time for you to dieMarching our way through the crypts of the dead
Taking his land by command
Killing our victims and taking no slaves
Hitler's final Third Reich
The engines are roaring the warheads a blast
Destroyers claims their fate
Hells legions armies they march to defy
Lucifer takes his waitObeying this task by our leaders will
Death camps have taken their toll
Cold winds of winter are present forever
Destroyers claim their fate

Death camp
