

It's a Long Way Down to the Top

Back Street Crawler

Well I have been playing Rock n roll now but
Half a million years
And the road to success
Might be call the trail of tears Now I don't mean to sound bitter
But I surely had my fun
But if I could have looked ahead
I might have never had begin It's a long way down
To turn your head around
It's a long way down
To the top It's a long way down
To turn your head around
It's a long way down
But I knew that fame and fortune
Would surely come my way
But the thing I did not realize
Was the price I have to pay I thought I beat the devil
But I had to guess a game
Cause the man who wrote my contract
Sure looks a lot like hell It's a long way
To turn your head around
It's a long long way Ohhh Sure looks a lot like. hell Yes it does
Yes it does
Yes it does Oh it's long
Such a long
Such a long way
God it's long
Such a long
Such a long God it's long
Such a long
Oh yea to the top
