

# Until You Try

**Katie Herzig**

You said it the perfect way  
On your own and out loud  
You said it the perfect way  
You were strong and resound  
They didnt want to hear it  
But its time Youre living in your high hopes  
And I know that youre scared  
Cause there is a hell below  
Anytime you go there  
And even the perfect rhyme is a hell of a find You wont know until you try  
You wont know until you try You will be looking back  
On the days that were happy  
Itll be hard to see  
Why youd chosen to leave  
But never forget the feeling  
When its right
