Envy

Yata Garasu

Who fed our fire at such a young age
Good intentions coming off as rage
Taking sides turn another page
Hold another grudge
Who fed our fire and put us in our place
Independence smothered by your chase
Subtle hints to save a little face
Hold another grudge

Ambition is strong but out of focus
What are we trying to prove
One way competition
Sounds like envy looks like you
Turn me into you
Ambition is strong but out of focus
What am I trying to be
Stand still competition
Sounds like envy looks like me
