Bite Me

Tech N9ne

(feat. Tonesha Sanders, Jessica Slankard)"Mmmm yeah, bite me. oh... Harder. Harder. HARDER!"She don't even know
Little mean go'
Get carried away and bite and let her blood stream flow
Accidentally leave her cold, el nino
Pinot noir gushing outta this teen ho
And 19 shouldn't be so damn freaky,
But they on it, and they want it,
Hit then split, then leave 'em leaky
But, this particular chick Punani's thick and beefy
Rich and seepy
Oh yes I have a female animal beneath meShe all in it then she told a nigga to bite her neck
I'm excited cause the gush will give my nut the right effect
But where will I hide a set of double D's
If I try to get her jugular open
I'm gonna keep with the pokin'
Have to really be strokin' her all night
I'm wet, sunk my teeth in
Bitches in heat send me over the top they get hot
Then I gotta bring the beast in
She knows not what she ask or what this night be,
This might be the day that she die 'cause she told an animal to...Bite me.
Excite me.
Just bite me, not lightly.
I hope this scar is forever.
Baby, I'm getting wetter.
The harder the better.Bite me.
Excite me.
Just bite me, not lightly.
I hope this scar is forever.
Baby, I'm getting wetter.
The harder the better."Ouch baby that hurts! Suck. SUCK! AHHH"
