

# The Beast

## Twisted Sister

You can hear the thunder  
Long before the storm  
But you can't hear the lion  
When he stalks his prey  
He's moving like a shadow  
Creeping up on you  
And like a siren's call  
He's gonna have his way  
You'd better run, forget your pride  
Don't make a stand, just step aside  
If you don't have what it takes  
Don't try to play you'll lose your stakes  
Remember this at least  
It's the nature of the beast  
It's the nature of the beast  
You won't hear a footstep  
Comin' up on you  
Movin' like a snake  
He's in complete control  
This killer knows his business  
He is the predator  
You are his only target  
You're his only goal  
What will you say what will you do?  
Your wildest nightmare's comin' true  
There is nothing you can say  
No way to change, he won't delay  
This Cain will have his feast  
It's the nature of the beast  
It's the nature of the beast  
If you play  
You're bound to lose  
Don't roll the dice  
Don't turn the screws  
Just listen to the priest  
It's the nature of the beast  
It's the nature of the beast  
It's the nature of the beast  
It's the nature of the beast
