

Better Than You

Conor Maynard

(Intro)

I can do it better than, Better than you,

(Verse 1) [Conor]

I can tell that you're watching me,
And I know you're loving everything that you see,
The way I got you going crazy,
I'll make you wanna dance for me,
And now I'm walking round like I just don't care,
Got everybody looking like I'm a true playa,
So what's up? What's up?

(Pre Chorus)

I see you, Staring, But I ain't mad at that,
Why don't you do you, And I'll do me right back

(Chorus)

You ready to go? (Oh) Sure you wanna play this game?
I can do it better than, better than you,
I can do it better than, better than you,
So baby let's go, (Oh) I know you won't forget about me,
I can do it better than, better than you,
I can do it better than, better than you,

(Verse 2) [Rita Ora]

So you get what you see with me,
Take a picture but you ain't getting 3D,
Boy slow down, Come here, Imma make you sing for me,

So you say that you're better than me,
If I take it all off, bet you'd like what you see,
So what's up? What's up?

(Pre Chorus) [Conor]

I see you, Staring, But I ain't mad at that,
Why don't you do you, And I'll do me right back

(Chorus)

You ready to go? (Oh) Sure you wanna play this game?
I can do it better than, better than you,

I can do it better than, better than you,
So baby let's go, (Oh) I know you wont forget about me,
I can do it better than, better than you,
I can do it better than, better than you,

(Middle Eight)

I can see ya, Losing your mind yeah,
Cause we about to set this off right, (x2)
I can see ya, Losing your mind?

(Chorus)

You ready to go? (Oh) Sure you wanna play this game?
I can do it better than, better than you,
I can do it better than, better than you,
So baby let's go, (Oh) I know you wont forget about me,
I can do it better than, better than you,
I can do it better than, better than you,
