

# Gel

## Collective Soul

Color me any color  
Speak to me in tongues and share  
Tell me how you'd love to hate me  
Tell me how you'd love to care  
Well I just want to shake us up  
Well I just want, well I just want to, to shake us up Let's mingle  
And make it well  
Come together now  
Yeah, let's gel Clothe me in any fashion  
Glitter to so mundane  
Tell me how you'd love to change me  
Tell me I can stay the same  
Well I just want to shake us up  
Well I just want, well I just want to, to shake us up Let's mingle  
And make it well  
Come together now  
Yeah, let's gel Let's mingle  
And make it well  
Come together now  
Yeah, let's gel Well let's bungle  
And live to tell  
How we came together  
Yeah, how we gelled
