

# Kids (Keep Up)

## Childish Gambino

[Chorus]

If we were kids  
I'd want to give you everything that you would want  
Those other boys  
They gave you toys, but all they wanna do is  
Keep up  
Keep up, keep up, keep up  
That's all I want, keep up  
Keep up with me, keep up  
Keep up  
Keep up, keep up, keep up  
That's all I want, keep up  
Keep up with me, keep up

I guess I'm fucking now

I'm getting used to it

It's cause I shine, and I ain't gotta use a crucifix  
Fuck the fussing and fighting and arguing to this and that  
And "Why you bein' mean to me Donald?" I never texted back  
I know it's comin' quick, wishin' I could fast forward  
Tell these nice girls they're the reason that I'm an asshole  
Omega to alpha male, because of that dollar bill  
When I worked the mail room I ain't have a shot in hell  
I called her ass for two months and heard shit from her  
These girls couldn't care less when the chips under  
The chips are up and on my shoulder, you heard me?  
I take it out on girls who don't even deserve it  
The girls I tried to hit last year, I still might  
Karma's a bitch who doesn't suck, but I still like  
If we were kids I'd have the black K-swiss and reebok  
If we were kids I wouldn't act like this but we not

[Chorus]

You made a mistake  
These dudes man you bathing in apes  
Finding you is like finding Asians I hate  
But they say I got a fetish, nah I'm skipping all of it  
Black or white girls come with a set of politics

That's all I was saying  
I'm a proud man  
They wanna holla when they see your name on SoundScan  
Her name Mercedes but she push a brown Focus  
And she's doing coke in front of me, but act like I don't notice  
"There any breakage in that Trojan?"  
She see what she wanna see  
So I make her take plan B in front of me  
Women talk shit on men like all day  
But it's Pete Wentz, goes both ways  
They too busy stabbing hoes like OJ  
They too busy trapping pros like Kobe  
The only thing I put before me is do re  
If you had told me the truth we'd be OK

[Chorus]
