Dirty and Cheap

Randy

i'm fucking pissed man i can't take it
they built a safetynet and now you want to break it
you always been so scared but now you're weak too
so fuck you fuck youyou claim you are one in a million but you're a million to one
you say you just getting started i say you're already donei had enough man i'm sick of faking
if the system had a neck you know i gladly break it
you started with nothing but now you lost that too
so fuck you fuck youyou got one eye open but you claim that you sleep
you say you're not involved but you're in knee deepyou play dirty
dirty and cheap
if it's evil you sow it's evil you reapi'm fucking pissed man i can't take it
you had it going on but you choose to forsake it
you sold the little we had and now you are selling us too
so fuck you fuck youyou tore down the walls
had us settling with less
you sold us out behind our backs and left us this messyou play dirty
dirty and cheap
if it's evil you sow it's evil you reapyou started with nothing but you will end up with less
you sold us out behind our back and left us this mess
if it's evil you sow it's evil you reap
you got one eye open but you claim that you sleepyou play dirty
dirty and cheap
if it's evil you sow it's evil you reap
