

# Watch You Slide

**Danko Jones**

Don't care on who you travel on  
If it doesn't get you there  
And a man always leaves his  
And when you wish for  
You run away because you're scared  
When your lies open wide  
I pretend  
I watch you slideIt's very obvious  
So making off for what you have  
Y0ou push your chest wide  
With your hands behind your backYou never know this cause your head is up in the clouds  
And that seems that it makes you proud  
When your lies open wide  
I pretend  
I watch you slide  
Instrumentall'm getting that sick feeling  
I'm getting it  
And someone's getting itYou don't know what I mean  
I mean I think  
You please your meansYou better tick with what's a bit extreme  
Take a look around  
Take it all  
Tell me how you're feeling  
You can't see what I see  
I see a man  
Trying to get a little bigger  
You try to block your way  
But I see through your smile  
When your lies open wide  
I pretend  
I watch you slideWhen your lies open wide  
I pretend  
I watch you slide, slide
