

Happier Sad

Jebediah

Falling out again
Cos I like the way it feels to live in doubt
Just when everything was working out
And it's all because of me
All these emotional feelings I can't ignore
Aren't on display to the whole world anymore
It's high time I start to learn
To live my life with a poker face and then
Am I Happier Sad?
It's all over and done
Kinda feels secure
The best cure for a heartache I can find
And I'm warm inside my melancholy mind
