death squad

Kilslug

Putting to death those who oppose you
Will take control, no matter the cost
Bodies are mounting the carnage around you
At last count, ten-thousand have diedTaken by force, controlled by fear
Death squad police of the right
Must stamp out subversion, dissension, unrest
Those who oppose will meet deathAutomatic weapons in hand
You say you're what the people want
Why must you kill them [Incomprehensible] vote?
Death squad escort to the pollsPuppet regime with you at the head
Rid them of a communist threat
Brand of democracy is now in control
And all of your people lie deadTaken by force, controlled by fear
Death squad police of the right
Must stamp out subversion, dissension, unrest
Those who oppose will meet deathDemocracy at any cost
[Incomprehensible] of freedom unclear
Right-wing radicals, abusing control
The choice will be democracy of deathTaken by force, controlled by fear
Death squad police of the right
Must stamp out subversion, dissension, unrest
Those who oppose will meet death
Those who oppose will meet death
