

Mutilate

Front 242

We will stagger, we will stagger on and on
A simple habit, jump from one foot
To the other on and on Chained to the laws, chained to the laws Let's go further, used to reeling on and on
A plain reflex if mistaken
Never lose faith, steering on We will stagger, lose out bearings on and on
Yes, there can be no obvious answers as we move on
And on and on, we must tremble
Lame and humble on and on Behind the stars, beneath the walls
Below the ground, before the storm
Below the ground, before the storm Chained to the laws, chained to the laws Useless anger, there's no answer to
be found
We will stagger, we will falter
Stained and blackened on and on Chained to the laws, chained to the laws
You'd better know the laws "Once more into the breach, dear friends... Breeding is an ugly thing... Copulate...
Ah jeez"
