The Enemy

I Prevail

Held down, you've held me down too long.
Push me back on the ground, now it's my time to right your wrong.
Shut up, this is my turn now.
You're just the hypocrite that's always tried to put me down.

Take, take, take from me, that's all you ever do.
You've taken everything, now I'm taking part of you.
Run, run, run from me, it's too bad you can't see.
I've got you in my sights and I'm ready to unleash.

I'll take time to breath.

Now, now that I see.
I've lost so many battles from wars that you waged on me,
But this is the moment, it's time you know it.
I'm gonna make you my enemy.

Laid out, placed right in front of you
But you're a parasite and I'm the host you latched on to.
The fire you set, left ashes surrounding.
The world that I knew, you left burning around me.

Wait, wait, wait you'll see, you've been so damn naive.
You think you run the show, but I have to disagree.
Break, break break you down. Go ahead take off your crown.
It's time to lose control, like a fucking animal.

Now, now that I see.
I've lost so many battles from wars that you waged on me,
But this is the moment, it's time you know it.
I'm gonna make you my enemy.

Listen your worthless, let me make this clear.
I'm done with betrayal, I'm done with the fear.
You had the cards, but now it's time to fold.
Now hear out these words, and do what you're told.
Do what you're told. Do what you're fucking told.

Now, now that I see.
I've lost so many battles from all that you did to me,

But this is the moment, it's time you know it.
I'm gonna make you my enemy.

Listen your worthless, let me make this clear.
I'm done with betrayal, I'm done with the fear.
You had the cards, but now it's time to fold.
Now hear out these words, and do what you're told.

Now, now that I see.
I've lost so many battles from wars that you waged on me,
But this is the moment, it's time you know it.
I'm gonna make you my enemy.
I'm gonna make you my enemy.
