Like It Too Much

Kaiser Chiefs

In nights of old they lie in the roads
Off with their heads and always left opinion polls
Going in announce of another state's off
Try not to be obvious but with their inside seats
In uniforms of green and gold
Like crocodiles they march in files of unison
Going in announce of another state's off
Try not to be obvious but with their inside seats
Going in announce of another state's off
Try not to be obvious, you get the first one free
I like it too much
I like it too much
I like it too much
I like it too much
'Cause you are descended from animals
And you are constructed of chemicals
The one thing you can't have you like too much
You look but you cannot touch
Like dominoes one only goes
They all fall, sail the ship, rock the boat
Going in announce of another state's off
Try not to be obvious but with their inside seats
Going in announce of another state's off
Try not to be obvious, you get the first one free
I like it too much
I like it too much
I like it too much
I like it too much
'Cause you are descended from animals
And you are constructed of chemicals
The one thing you can't have you like too much
You look but you cannot touch
I like it all too much
'Cause you are descended from animals
And you are constructed of chemicals
The one thing you can't have you like too much
You look but you cannot touch
I like it all too much
