

# Like It Too Much

## Kaiser Chiefs

In nights of old they lie in the roads  
Off with their heads and always left opinion polls  
Going in announce of another state's off  
Try not to be obvious but with their inside seats  
In uniforms of green and gold  
Like crocodiles they march in files of unison  
Going in announce of another state's off  
Try not to be obvious but with their inside seats  
Going in announce of another state's off  
Try not to be obvious, you get the first one free  
I like it too much  
I like it too much  
I like it too much  
I like it too much  
'Cause you are descended from animals  
And you are constructed of chemicals  
The one thing you can't have you like too much  
You look but you cannot touch  
Like dominoes one only goes  
They all fall, sail the ship, rock the boat  
Going in announce of another state's off  
Try not to be obvious but with their inside seats  
Going in announce of another state's off  
Try not to be obvious, you get the first one free  
I like it too much  
I like it too much  
I like it too much  
I like it too much  
'Cause you are descended from animals  
And you are constructed of chemicals  
The one thing you can't have you like too much  
You look but you cannot touch  
I like it all too much  
'Cause you are descended from animals  
And you are constructed of chemicals  
The one thing you can't have you like too much  
You look but you cannot touch  
I like it all too much
