

# Electro-Violence

## Overkill

Watch the circle, dehumanize  
Fuck the world, stay outside  
You tread on me and you will find  
That you flirt with death before your time  
Face the music and the time has come  
Into the circle  
Electro-violence  
Violence  
Electro-violence  
Keep your distance, subdivide  
Do not enter, conservative type  
Sweaty bodies, bodily harm  
Abuse thy neighbor, that's the charm  
Bloodshed on everyone  
Don't mistake, violence for fun  
Blood, guilty fashion fiend  
What you here for, you don't fit in  
Take the shot, take the pain  
Rebound back again  
Uncivilized reaction appeals to me  
No restraints face reality  
Never victim, always vice  
Taking charge, desensitized  
Do unto others, stay unbowed  
You social misfit, you're one of us now  
Violence, hey, violence  
Electro-violence
