

I Remember

28 Days

One time i remember
that you were much better
now you smoke and now you drink
i remember when you used to think

You lost it your legal
those sweeping comments you
taking pills and you contrdict
comments you made before you backflipped

I hope you feel like you belong
yeah just like you did before
just another scenester fool
just another fashion whore

We sure saw who stuck around
morals walked on out the door
now we see you at the club

Was it worth it
and you're grinding on your jaw
feel like you belong

turn your back

Was it worth it

feel like you belong

turn your back

feel like you belong

feel like you belong

was it worth it, turn your back

One time i remember

that you were much better

i remember when you used to think

now you smoke and now you drink

yeah just like you did before

I hope you feel like you belong

just another fashion whore

just another scenester fool

We sure saw who stuck around

morals walked on out the door

and you're grinding on your jawnow we see you at the club
