

# No Compromise

## Ektomorf

Here I am  
With thousand bleeding wounds  
From the life Here I am  
You never believed in me  
But now this is my time I don't play your game  
I know my way  
This is my life  
No compromise Here comes the time  
The hurricane of my fate With strength and anger  
Break down all the negative shit I don't play your game  
I know my way  
This is my life  
NO COMPROMISE
