

Queen for a Day

The Jesus Lizard

I called that senator
From the White House
I sat in my office and ovulatedA full length mirror
I'm queen for a dayLook up the skirt of our nation
I saw the prime minister
In the shit house
My palace
Is just a Goddamned rest home
I fit the prince
In and out of my scheduleA full length mirror
I'm queen for a day
I'll spend the rest of my years alone"Before they turned left face
along the bank
each one gave their good
captain a salute
with farting tongue pressed
tightly to his teeth
he blew back with his
bugle of an asshole"I called the president
In the White House
I sat in my office and ovulatedA full length mirror
I'm queen for a day
etc...
