

# Young Fashioned Ways

## Muddy Waters

I maybe getting old  
But I got young fashioned ways  
I maybe getting old  
But I got young fashioned ways But I'm gonna love a good woman  
The rest of my natural days  
If my hair's turning gray  
I know you think the way I feel  
If my hair's turning gray  
I know you think the way I feel  
There may be snow up on the mountain  
But there's a thaw down under the hill I maybe getting old  
But I got young fashioned ways  
I maybe getting old  
But I got young fashioned ways I don't worry about no young one  
There'll be no one to take my place A young horse is fast  
But an old horse knows what's going on A young horse is fast  
But an old horse knows what's going on A young horse may win the race  
But an old horse stays out so long
