Moon in Mercury

Moonspell

Medusa caught in the mirror blade
Expression burnt in the waters red
Under her wing we were born
No dreams of rising for the kind of man
For the kind of manMoon in Mercury
Moon in MercuryQueen of the depths in dust portrayed
The broken heart never hesitate
Count down the tree to draw the first blood
A revelation with every cutInfidel to all creeds
Breaker of all vows
Enemy of happy ends
Confident, sure to die now, sure to die nowMoon in Mercury
Moon in MercuryThis is my body exhausted
In a ring of fire
When you'll take it
Your eyes will be openedMoon in Mercury
Moon in MercuryThis is my flesh consumed
By the ring of fire
When you'll taste it
Your eyes will be openedMoon in Mercury
Red in the waters
Moon in Mercury
Black in the mirrors
