

# Momma

## Ronnie Laws

Aye, you know what? When I started recordin' this album  
I said I won't gonna do a, you know dear momma type of record  
    But I felt the need to 'cause I wanna express  
        How I feel about my momma  
    But at the same time I want y'all to know that  
        If I ever found a woman out there that  
Was anythin' like my momma, \*\*\*\* I gotta have her  
    Ain't another girl on this earth like my momma  
    But if I find that girl I'ma make her my woman  
        If I find another girl like my momma  
I'll give her unconditional love 'til they take me under  
    First things first, where do I start?  
This feelin' that I'm feelin' is real, it's not a facade  
    The angel that I call momma was sent by God  
    Been through thick and thin, better times, even hard  
        Raisin' two boys in the ghetto weren't easy  
        \*\*\*\* was goin' wrong but she made it seem peachy  
    Yeah, she worked long hours whether rain and the freezin'  
    Pulled out the Vicks VapoRub when I was sneezin'  
    When the kid laid her off and the rent was past due  
    Mom was a O G, did what she had to, I got kicked out of school  
    She had to talk to my principal, yeah, she kicked my \*\*\*  
        But her love is unconditional, I love my momma  
        Ain't another girl on this earth like my momma  
        But if I find that girl I'ma make her my woman  
            If I find another girl like my momma  
I'll give her unconditional love 'til they take me under  
    I remember my first BMX, she showed me how to ride  
    She used to lick her thumb to wipe the cold out my eyes  
    Oh yeah, I can't forget her cookin', how it stick to my ribs  
        She could take Spam and make a first class meal  
        When my nigga Steve died me and her both cried  
    And when I got locked up she bailed me out every time  
        Guess, I'll never know how she remained so strong  
        Received Medicaid and food stamps for so long  
        We were in Section 8 all the way 'til I was grown  
        She played both roles, king and queen of the throne  
            I'm not exaggeratin', not even to the slightest  
    This came from the heart so I ain't even have to write it

I love my momma  
Ain't another girl on this earth like my momma  
But if I find that girl I'ma make her my woman  
    If I find another girl like my momma  
I'll give her unconditional love 'til they take me under  
    (I'ma try to stop the music one time)  
    (Want y'all to clap with me, come on)  
Now if you love your momma clap your hands  
    If you love your momma clap your hands  
    If you love your momma clap your hands  
    If you love your momma clap your hands  
Shorty, I brought you in this world, I'll take you out  
You said it when you caught me skippin' school, makin' out  
    Momma you stayed down, you never faked it  
Stayed by my side when they thought I wouldn't make it  
    And when I had a son, they said I need a job  
That's when you told me, "Son, just follow your heart"  
    And so I did that, I went through all the drama  
So I just wanna take this time to say I love you momma  
    Ain't another girl on this earth like my momma  
    But if I find that girl I'ma make her my woman  
    If I find another girl like my momma  
I'll give her unconditional love 'til they take me under, yeah
