Far From Grace

Ancara

If you should fall
If you should fall
Far from graceIf you should call on him
Wake up to the music again
You can feel sunlight
In your eyesLiving is so useless 'round here
The city's so dangerous
On your own
How beauty dies youngBut if you should fall
Oh, if you should flow
From grace
How beauty, beauty fadesIf you should fold
If you should fail
Far from grace
Far from graceOh, oh beauty
You could know
