In A Minute

Thomas Rhett

Here in a minute, any work I got left to do, aw man I'm gonna quit it
If the boss man wants me to stay any longer he can kiss it, goodbye
'Cause I gt a lot on my mind and I'm tryin' to forget it
Yeah, right here in a minute
So here in a minute I'm gonna roll to the Quick Sak
Maybe a scratch off ticket
If I get a lil' lucky, get some money in my pocket
I'm gonna spend it
On beer, yeah ice down the toolbox and see how high I can fill it
Yeah, right here in a minuteI'm gonna call everybody
Tell' em all there's a party
If you want then it you better come and get it
I'm gonna rock all night 'til I'm feelin' alright
And the man in the moon get to grinnin'
I'm gonna have a big time cause you get one life
So I'm gonna make sure that I live it
'Cause you never know when you're gonna go
It could all be all over in a minuteSo, here in a minute
I'm gonna find me a field somewhere, we can wake up the cricket's yeah
Throw some diesel on the fire and see how high we can get it
Get the guitars out and listen to them ol' boys pick it
All night, right here in a minuteI'm gonna call everybody
Tell' em all there's a party
If you want it, then you better come and get it
I'm gonna rock all night 'til I'm feelin' alright
And the stars in the sky get to spinnin'
I'm gonna have a big time cause you get one life
So I'm gonna make sure that I live it
'Cause you never know when you're gonna go
It could all be all over in a minute
So here in a minuteIn a minute gonna get a little loud, turn it up, burn it down
Take a ride around, paint the whole dang town
Here we go, countin' it down, 3, 2, 1...I'm gonna call everybody
Tell' em all there's a party
If you want it, then you better come and get it
I'm gonna rock all night 'til I'm feelin' alright
And the stars in the sky get to spinnin'
I'm gonna have a big time cause you get one life
So I'm gonna make sure that I live it

'Cause you never know when you're gonna go
It could all be all over in a minuteNo, you never know when you're gonna go
It could all be over in a minute
So here in a minute, ah yeah,
Right here in a minute, that's right
I'm gonna pop me a beer and I'm gonna get to sippin'
Get to grinnin', right here in a minute
