

# Face It All

**Fred Hammond**

From my heart here is what I need to say  
From now on and until my dying day  
My love is here to stay, my heart has found its place  
You say you feel this too, so whatever we go through  
Hand in hand, we can stand and face it all  
You're my heart and I'm your man, we'll face it all  
To say our life will all be smiles would be untrue  
We've had our share of heartache and pain but our love has brought us through  
So let's say on this day, together we will stay  
If life is good and gold or if tears fall down our face  
Hand in hand, we can stand and face it all  
You're my heart and I'm your man girl, we'll face it all  
We'll trust the Lord and He will be our guide and we can face it all  
We can face it all

Side by side, you and I will face it all  
We'll face it all  
Just keep your hand in mine girl  
And we'll make it through whatever, comes our way  
We'll take it day by day  
Together you and I, together side by side, we'll face it all, we'll face everything that comes our way  
As long as we're together, I know that we can make it  
'Cause I love you, I know you love me too  
We can win, we can win, we can win girl, we can win girl and face it all, we'll face it all  
No weapon formed against us can ever separate us  
If we believe and we should be, side by side, side by side, we can make it girl, ohh we'll face it all  
Ohh, we'll face it all  
With every tear we cry, we'll hold each other tight  
We'll trust the Lord, we'll trust Him to bring us through  
Together you and I, hand in hand, side by side, we'll face it all
