

Undress Me Now

Morcheeba

Using your mind, imagine our skin
Joined at the hip, joined from within
By using your eyes, you're freezing my frame
Watching our clothes burst into flames Undress me now, you know how
Using your eyes now
Undress me now, you know how
Using your mind, using your mind So give me a light, or give me a drink
Just give me a reason to feel what I think Undress me now, you know how
Using your eyes now
Undress me now, you know how
Using your mind Undress me now, you know how
Using your eyes now
Undress me now, you know how
Using your mind, losing my mind Undress me now, you know how
Using your eyes now
Undress me now, you know how
You know how, you know how
You know how, you know how
