

# Distance

## Jack & Jack

Missed calls and ignored texts

And late night

I'm staying up stressing

Girl I got you on my mind

I swear this happens every time

Yeah

But what about our last fight

Yeah i know it happened last night

You can put that in the past right

I'm just tryna live the fast life

And what's love without trust girl

And what's love without lust girl

I've been thinking bout us girl

I've been thinking bout

So what do we do now

Everything we built, we broke it

It's all shattered and broken

I can't get you outta my head

It's all falling down

Time that we get going

Things you never told me

I thought you were the one

Yeah I thought you were the one

But i guess things change

No it's nothing with the fame

Girl i swear it's all the same

There's a difference in interest

I feel it when we're kissing

One day you're here

And the next day you're missing

Uh

Can we be consistent

Girl

Are you even listening

Yeah

Got me feeling so distant

I'll be gone in an instant

So what do we do now  
Everything we built, we broke it  
It's all shattered and broken  
I can't get you outta my head  
It's all falling down  
Time that we get going  
Things you never told me  
I thought you were the one

Yeah

Really I wanna know  
Looking at you in the eyes  
Even though my are kinda low  
And it's easy to see  
That something is hurting you so bad  
I know that the rhythm and flow  
That I'm putting on this slow track  
Are gonna make you so sad  
At least i can say for the time  
I was satisfied  
Answering machine  
Hearing your name next to mine

So what do we do now  
Everything we built, we broke it  
It's all shattered and broken  
I can't get you outta my head  
It's all falling down  
Time that we get going  
Things you never told me  
I thought you were the one

So what do we do now  
Everything we built, we broke it  
It's all shattered and broken  
I can't get you outta my head  
It's all falling down  
Time that we get going  
Things you never told me  
I thought you were the one
