Beaten Senseless

Biohazard

Beaten senseless in every way
Life disappears, gets blown away
New world chaos in disarray
A second to die and forever to prayThe time has come to push to fight, to die, to live
This time I take the fall
Don't sort them out, just kill them all
Just never push my back against the wallBeaten senseless, violent relentless
No hope defenseless, beaten senselessNow you pushed me over the edge
Can't take it no more, I'm seeing red
Beaten senseless over the head
Never gonna stop until youre all fucking deadVengeance is my only thought
Rage, abuse, the wars I've fought
Self preservation is self taught
Turn your back and you'll be caughtCrushing, pain, intensity, a violent beating
Senselessly so cruel, agony
Broken spirit, broken home, a broken man
Who can not cope with pain, misery
