Backfire

Animassacre

Please tell me
Why are we
Tryin' so hard?
Why worry?
It's over
We always fall right back to where we start

There goes another one of our
Surefire plans
It backfired again
We try to make it through the
Best that we can
I bet it's gonna backfire again

Take what is
Given you
How does that sound?
Everything is all thought through
And fool proof
Now watch it all crumble down and down again

There goes another one of our
Surefire plans
It backfired again
We try to make it through the
Best that we can
I bet it's gonna backfire again
Backfire again
It's gonna backfire again

Knives don't carry laws that vary
They're just what we fall on
Self-made coffins
Scars are talkin
Tell us where we are
Where we are now
Where we are now
Where we are now
Where we are now
They all

They all
They all are talking
They all
They all
They all will tell another story

There goes another one of our
Surefire plans
It backfired again
Surefire plans
We try to make it through the
Best that we can
I bet it's gonna backfire again
There goes another one of our
Surefire plans
It backfired again
We try to make it through the
Best that we can
I bet it's gonna backfire again
