Snapshot

Zargo

Here and there, everywhere The places that I go people stop and they stare I'm beautiful that I know I am quite a sight to behold Hey now, hey now, now I want you to remember me being who I wanna be Hey now, hey now, now Turn it on then you?ll see everybody look at me **Snapshot** Take my picture snapshot Let me show what I got Red hot Take my picture red hot Take it over the top Photograph, video Catch me while you can 'cause I gotta go Hollywood, sunset strip

Living in the spotlight can be such a trip
Hey now, hey now, now
Take it on my good side, don?t wanna be on my bad side
Hey now, hey now, now
I ain?t never been shy, ain?t got nothin? to hide
Snapshot
Take my picture snapshot
Let me show what I got
Red hot
Take my picture red hot
Take my picture red hot
Take it over the top
Say baby, uh, you got some film in that camera
Or are you just happy to see me?
Hey now, hey now, now, click, click
Hey now, hey now, now, click, click
