

Don't Need Your Love

Lucas Nord

(I don't need your love no more)
(I don't need your, I don't need your love no more)
(I don't need your love no more)
(I don't need your, I don't need your love no more) Truthfully, I thought we were way past that
'Cause usually, time heals every gap that's killing me
I can't look at you right now, no no I don't care about the past mistakes
We completely lost control
It's time to move on
You don't care about me acting cold
I don't care about the past mistakes
We completely lost control
It's time to move on and get out I can't trust you enough, I don't need your love no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
You can't blame your bad luck, I don't need this shit no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
I can't trust you enough, I don't need your love no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
You can't blame your bad luck, I don't need this shit no more
(I don't need your love no more)
(I don't need your, I don't need your love no more) Constantly, you try to fix the things that's broken me
I know this ain't how it's supposed to be, supposed to be
I gave you all I ever had, yeah yeah I don't care about the past mistakes
We completely lost control
It's time to move on and get out I can't trust you enough, I don't need your love no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
You can't blame your bad luck, I don't need this shit no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
I can't trust you enough, I don't need your love no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
You can't blame your bad luck, I don't need this shit no more
(I don't need your love no more)
(I don't need your, I don't need your love no more) (I don't need your love no more)
(I don't need your love no more) I can't trust you enough, I don't need your love no more

(I don't need your love no more)
(I don't need your, I don't need your love no more)
You can't blame your bad luck, I don't need this shit no more
(I don't need your love no more)
(I don't need your, I don't need your love no more)
(I don't need your love no more)
(I don't need your, I don't need your love no more)
(I don't need your love no more)
(I don't need your, I don't need your love no more)
Say I don't need your love no more
(I don't need your love no more)
