

Ghost Ship of Cannibal Rats (Demo Version)

Billy Talent

(Respect!)

There's never an opportunity
I'm tired of looking the other way

(Respect!)

And every time that we can't sustain

We're on a mission to kiss our days away So how long before the rivers start to rise here?

Yeah, I think my lucky stars will be aligned here (Respect!)

A generation of castaways
Under a nation of tidal waves

(Respect!)

Are we the passengers or the prey?

You can't escape from the past on holiday So how long before the rivers start to rise here?

Pack your bags because the tide is getting high Don't be afraid that a few haven't across

It's just a captain and crew jumping under the mast!

All aboard on the ghost ship of
(Cannibal rats!)

All aboard on the ghost ship of
(Cannibal rats!)

Who's gonna sound the alarms when the bridges collapse
and disappoint when the bar reaches critical max?!

All aboard on the ghost ship of
(Cannibal rats!)

All aboard on the ghost ship of
(Cannibal rats!)(Respect!)

Catastrophic events don't change
Today we feast but tomorrow we pay
(Respect!)

But don't you worry 'cause you'll be safe

I got a ticket to piss your days away! So how long before the rivers start to rise here

Yeah, I think, my lucky stars will be aligned here Don't be afraid that a few haven't across

It's just a captain and crew jumping under the mast!

All aboard on the ghost ship of
(Cannibal rats!)

All aboard on the ghost ship of
(Cannibal rats!)

Who's gonna sound the alarms when the bridges collapse
and disappoint when the bar reaches critical max?!

All aboard on the ghost ship of
(Cannibal rats!)

All aboard on the ghost ship of
CANNIBAL RATS! Don't be afraid that a few haven't across
It's just a captain and crew jumping under the mast!
All aboard on the ghost ship of
(Cannibal rats!)
All aboard on the ghost ship of
(Cannibal rats!)
Who's gonna sound the alarms when the bridges collapse
and disappoint when the bar reaches critical max?!
All aboard on the ghost ship of
(Cannibal rats!)
All aboard on the ghost ship of
(Cannibal rats!) We're sailing from the coast
And we're moving too fast
We're sailing from the coast
Sailing into the past
All aboard on the ghost ship of
(Cannibal rats!)
All aboard on the ghost ship of
(Cannibal rats!)
We're sailing from the coast
And we're moving too fast
We're sailing from the coast
We could never come back
All aboard on the ghost ship of
(Cannibal rats!)
All aboard on the ghost ship of
CANNIBAL RATS! Cannibal rats!
